**HOW DO LOANS WORK?**

**How to get a loan:** When you take out a loan, you have to pay back the amount borrowed plus interest (fees may also be included). Do your best to minimize costs and run the numbers to understand before you borrow.

**How to choose a loan:** When you get a loan, you have to qualify. To get a loan, you have to qualify.

**How to repay a loan:** Each monthly payment is split into two parts: a portion of it repays the loan balance, and a portion of it is your interest cost. Strong credit helps your chances of getting a loan.
